Certificate of Electrical Equipment Testing

Electricity at Work Regulations 1989

ST ANDREWS CHURCH
SILVER STREET
ENFIELD
EN1 3EG

Total number of electrical items inspected and tested:

90

Please see attached electrical equipment test results for further details.

Scope:

Electrical equipment tested as directed. Fixed Appliance Testing carried out on accessible units (basic in-situ testing only)

Limitation(s): shower units, fire and security alarms, fixed wiring, light fixtures and fittings, equipment over 2m and central heating units excluded from testing.

Suggested date of next formal inspection:

This certifies that the electrical equipment detailed in the database provided has been tested for electrical safety in accordance with the Institution of Electrical Engineers Code of Practice for In-Service Inspection and Testing of Electrical Equipment. This in no way guarantees the future safety of the electrical item, the user of any electrical item should be alert to any defect or fault that may occur. If the user is in any doubt as to the safety or correct operation of the item, then the electrical equipment should be removed from service for further inspection by a competent person.

Any electrical item which has failed the test is detailed in the database report provided. The item has also been labelled "FAILED" and disabled by the inspector for safety.

ANY ITEM OF ELECTRICAL EQUIPMENT WHICH FAILED THE TEST SHOULD BE REMOVED FROM SERVICE UNTIL THE DEFECT HAS BEEN RECTIFIED.

Date completed: 14/10/2021
Inspector(s): MR J WILLIS
